

OBJECT LESSON FOR DOUBTERS

Congressman Mann Delivers a
Lecture in House on Pure
Food Bill.

BRINGS GOODS WITH HIM

DANGER LURKS IN JUICY COCK-
TAIL

Washington, June 21.—The space in front of the speaker's desk of the house today resembled a small section of a delicatessen store and a corner grocery, with cereals, jams, jellies, tins of peas, tomatoes, corn, bottles of whiskey and wine, imported sausages, branched cherries and other edibles and drinkables scattered over the tables. To complete the picture there were a standard scales with weights, a graduate and a funnel. These were used to demonstrate the contention of the majority of the committee on interstate and foreign commerce that a pure food bill is necessary for the protection of the people.

The house went into committee of the whole for the consideration of the bill, Mr. Mann beginning the discussion.

Aim of House Committee.
Mr. Mann contrasted the features of the senate and house bills, remarking that it was not the aim of the house committee on interstate and foreign commerce to recommend legislation as to what the people should eat or drink, but to call attention to what they are eating or drinking.

"Medicines now on the market advertised in the strongest terms to cure the opium habit," said Mr. Mann, "contain enough opium to develop the habit."

Most of the goods are not adulterated, according to Mr. Mann, and since the pure food agitation which began a number of years ago there has been a decided reduction in adulterations. "Yet," said Mr. Mann, "everywhere the honest manufacturer or dealer goes, he is met by sharp and keen competition from adulterations or short weights."

Afraid of Open Fight.

Calling the attention of the house to the action of the proprietary associations in still insisting on the passage of the Heyburn bill, he said the association was afraid to come out in the open and fight. He read a letter from the German-American extract works, in which they told him to make all kinds of liquors. He said that this firm claims to make any kind of liquor out of ethyl alcohol.

Black pepper, he said, is a fruitful source of adulteration, the filler being sold in five-ton weights, according to a letter which Mr. Mann read. Pepper berries are sold in five-ton weights.

WHAT HUNYADI JANOS IS

The Origin of the Name.

In Hungary, in the 15th Century, there lived a wonderful man—a great soldier and wise statesman—who was principally instrumental in driving back the "Unspeakable Turk" and keeping him out of Hungary at the period when bands of these marauders were ravaging most of Europe. By his victories in war and peace this man endeared himself to the people and gained a great and permanent place in the Magyar history. His name was HUNYADI JANOS, or John Hunyadi, as it would be in English. To the present day, in the affections of all Hungarians, he holds the place of one of their greatest national heroes. Is it strange then that they should wish to give this honored name to one of their most wonderful natural products—the famous Mineral Laxative Water from the Springs at Buda Pest? The unflinching value of this water as a sure and gentle Natural Laxative has gained for it a world wide reputation, greater even than that enjoyed by old John Hunyadi in Hungary. A bottle costs but a trifle and contains many doses. One dose, half a tumblerful (drink on arising, slightly warmed for best results), will within an hour move the bowels gently but copiously. At all Druggists. Ask for it by the full name—HUNYADI JANOS.

VAN RIPER'S OLD CONTRACT

Under the Same He Was to Get the
P. & I. N. Road Upon Pay-
ment of \$160,000.

(Special to The Herald.)
Boise, June 21.—L. C. Van Riper claims that a tender of \$160,000 he made the bond holders of the P. & I. N. road in April entitles him to a majority of the stock of the company. By an old contract he was to get a majority of the stock upon such payment in addition to other money he had furnished. The tender was declined as being illegal, and the bond holders elected their own people as directors and officers. Mr. Van Riper has now revised his claim. On the strength of this claim he has proceeded to elect a new board for the Idaho Construction company, and has served notice to Manager Helgoh not to proceed further. The company is building the extension without the intervention of the construction company. A complication has thus been raised, but its object is not fully understood. A man named Webster Bishop of New York is out here with Van Riper. He claims to represent the people back of Van Riper and states it is the purpose to get the road from Charles R. Flint and other holders of the bonds and stock. It is expected another fight is brewing and has been started in the interest of some one of the trunk lines. Van Riper, it is reported, is about to bring some action and it was thought he would do so today, but the case did not materialize.

ries, he said, are made out of tapioca colored with lamp black.

Sawdust for Coffee.

"The coffee that we drink, Mocha and Java," said Mr. Mann, "is generally adulterated with Brazil coffee, and ground coffee with sawdust and even bread crumbs."

Taking his position between the tables, Mr. Mann began a rapid explanation of every article there. Mr. Stevens of Minnesota handed the several articles to him. "Is he a regular pharmacist?" asked Mr. Mann. "The gentleman from Illinois has borne the title of doctor for many years. He has demonstrated his right to lecture before the university of the house."

Even Cocktails Dangerous.

Taking up a bottle of bright-colored cherries, marked "Maraschino cherries," he explained that the cherries had been picked green; that they were then bleached and colored with aniline dye, and, holding up a bright-colored bit of cloth, he said: "This cloth was dyed with the same dye."

"What are these cherries for?" asked a member. "I understand they are used one at a time in a well known drink," replied Mr. Mann amid laughter, some of the members recognizing the cocktail which goes with the cherry.

He held up a bottle containing a light-colored liquid. Mr. Mann said it was honey. "Yet it never saw a hive, much less a comb. It is fresh from the glucose factory."

Injurious to Health.

Freezin, he said, is a powder sold to preserve meat. He admitted that it might keep meats from spoiling, but said that it is most injurious to health, being composed of sulphite of soda and red coal tar dye.

A fine grade of olive oil used by the Union League club of Philadelphia turned out to be cotton seed oil with an adulterant. Taking three cans of tomatoes, Mr. Mann said each was of different weight, but all were bought for three pounds. "The department stores of New York, Philadelphia, Chicago and Washington and the mail order houses sell the short weight cans," said Mr. Mann. Mr. Mann insisted that standard cans ought to be full weight. Mr. Mann received an ovation when he concluded. The bill will be considered again tomorrow.

RICHARD IVENS DIES TODAY

Governor Dineen Refuses to Save the
Neck of Murderer of Mrs.
Hollister

Springfield, Ill., June 21.—Richard Ivens, confessed slayer of Mrs. Bessie Hollister of Chicago, will be hanged in that city tomorrow. The supreme court yesterday refused to grant a writ of supersedeas and today denied a motion for leave to file a more complete record in the case. The board of pardons, summoned to this city this morning, heard argument of the condemned man's attorneys and refused to recommend pardon or commutation. Tonight Governor Dineen refused to interfere in the carrying out of the sentence. The board of pardons held that the contention of Ivens' counsel that Ivens' confession was the result of hypnotic influence of the police was a mere theory and that nothing had been presented to the board except the averments in the petition to substantiate the theory.

Mrs. Hollister was assaulted and killed on the night of Jan. 12, near her home. The victim was found in the rear of Ivens' stable with a wire twisted around her neck. Ivens reported the finding of the body to the police, who arrested Ivens for the crime. He subsequently confessed his guilt to the police and to the coroner, going into the revolting details of the assault.

CORONATION TODAY.

Everything in Readiness for King
Haakon and Queen Maud.

Trondheim, June 21.—With a ceremonial modified from the old Norse forms, King Haakon VII and Queen Maud at noon tomorrow, in the old Trondheim cathedral, will be anointed, blessed and given Norway's crowns. When, nearly forty years ago, King Oscar of Sweden received the crown, he bared his breast and ecclesiasts crossed with sacred oils according to the custom of the older days. King Haakon will be anointed only on the forehead and wrists, and the entire rite will be simpler. The king and queen will enter the cathedral at 11 o'clock. King Haakon will be crowned first and Queen Maud afterward with practically the same ceremony. There will be 3,000 persons present.

The officials, bishops and chamberlains who will assist at the coronet rehearsed the service this afternoon.

ONLY \$1.00
To Ogden and Return.

Sunday June 24 via Oregon Short Line. Take any train on to 4:05 p. m.
